THERE IS CHANGE IN THE AIR

For months, the world has wondered what happened to the Avengers? What happened to the mutants? What will happen next? Are we really safe?

Who can we trust?

EVERY ACTION HAS AN EQUAL AND OPPOSITE REACTION

Since the early days of the Age of Marvels, a secret cabal has met to determine the fate of the many. After a difficult decision, this group begins to crumble.

A rift is growing.

The United States government, bowing to rising public opinion, is faced with a decision that will affect all heroes, one that pits civil liberties against national safety. Their decision will affect everything.

WAR–DRUMS ARE BEATING

Plans are being made that many will rise against. Trust is faltering. One misstep, one wrong move will cause a disaster the likes of which have never been seen. Once this fuse is ignited, there is no stopping what is to come.

LINES ARE DRAWN

Friend will turn on friend. Many will be hunted and vilified. No one will be left unscarred, no team left unchanged. Unlikely alliances are formed, some with deadly consequences.

Every hero will make choices that will alter the course of their lives; every hero will pay for that choice, some greater than others. How far will some go in the name of what is right?

AN AGE IS COMING TO AN END.

CIVIL WAR

IS UPON US.

Whose side are *you* on?

ANNIHILATION:

A mysterious force punctured through the literal edge of our universe, barreling into the moon-sized Kyln prisons there. After ripping through the ancient gulags holding prisoners as old as time, the invading armada set its sights on Xandar, the home world of the intergalactic peacekeeping force known as the Nova Corps.

On Xandar, the entire Corps was assembled to get the run down on the destroyed Kyln and get their marching orders. It was in the middle of this briefing that the forces now called the Annihilation Wave struck Xandar. The ensuing battle was monumental, disastrous, vicious, and totally consuming. The Nova Corps fell quickly. A stray creature called Drax the Destroyer, a prisoner of the Nova Corps, escaped during the battle with a young human girl named Cammi. Their whereabouts are currently unknown.

Once the dust settled, a lone figure crawled from the Xandarian wreckage—the last survivor of the Nova Corps. Richard Rider, the Corpsman from Earth, managed to survive the onslaught. Weak and defeated, he gave his final report on the last day of the Nova Corps. He was not the only one whose life was changed. Ronan, the Accuser, a powerful officer of the Kree Empire was arrested on charges of treason. The Silver Surfer, former herald to Galactus, the Devourer of Worlds, sensed a great disturbance in the galaxy and knew that something terrible was on the horizon. Something more akin to an infestation than an invasion. The Super-Skrull heard the news of several Skrull worlds being destroyed by the Harvester of sorrow and decided to head to his homeland to see for himself.

The Annihilation Wave rests in orbit around the destroyed planet Xandar. Inside the flagship sits Annihilus, the most deadly and powerful creature from the Negative Zone. He is called "The Living Death that Walks" and sees all life as a threat to his dominion. There is no bargaining with one such as Annihilus. There is no reasoning with him.

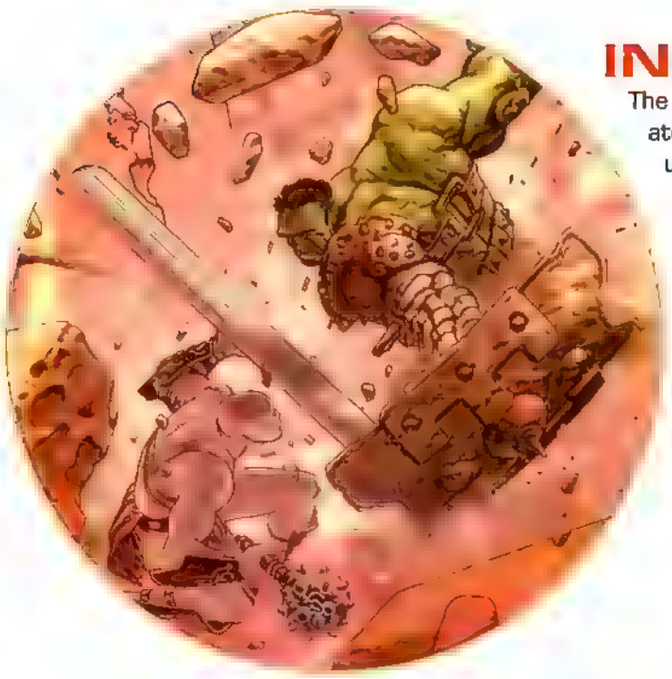
And very possibly, there is no stopping him.

BLACK PANTHER:

The Black Panther is more than just the embodiment of a warrior cult that's served as Wakanda's religious, political and military head since its inception. The Black Panther is the embodiment of the ideals of a people. Anyone who'd dare to make a move on Wakanda must go through him.

Every kingdom must have its Queen, and T'Challa's mother has decided it is time for him to choose a wife. After battling potential suitors and mounting a rescue effort in New Orleans with the New Avengers' Luke Cage, T'Challa returns to his quest for a bride.

His decision has been made. Who will it be?



INCREDIBLE HULK:

The Hulk has been betrayed by a group of Marvel heroes who created a plan to exile him from the Earth, sending him to an idyllic, uninhabited planet where there would be no one there to hurt him... and no one he can hurt. But the Hulk's shuttle, thrown off course by his rampaging, passed through a wormhole that deposited the Hulk onto the savage planet of Sakaar, where the Hulk almost immediately found himself under attack.

Temporarily weakened by his passage through the Great Portal, the Hulk was captured by Imperial forces, sold into slavery, and sent to the Great Arena to die in the games. Where some would accept their fate, the Hulk is now cutting loose, battling in a world where he is not the strongest, and relishing every second. The Hulk's primary thought: "This is gonna be fun." Hulk Slash!
